STAY WARM, HEAT LOCAL, SAVE MONEY!

Don't lose out on this generous incentive opportunity!

Efficiency Vermont Rebate	**$2,000**
CEDF Incentive (base $2,500 rebate with two optional adders of $500 each)	Up to **$3,500**
Total Rebate	Up to **$5,500**

The typical single family home annually spends:

- **$2,500 on Oil fuel[1]**
- **$3,500 on Propane fuel[2]**
- **Only $1,500 on Wood Pellet fuel[3]**

That's up to $2,000 a year less than propane!

You save nearly <u>$40,000</u> on fuel over 20 years when upgrading to a Wood Pellet Boiler!

1. Assumes 750 gallons of annual consumption at $3.25 per gallon.
2. Assumes 1250 gallons of annual consumption at $2.75 per gallon.
3. Assumes 6 tons per year at $250.00 per ton.

Why Wood Pellet Boilers?

When you choose Wood Pellet Heating, you are choosing a renewable, sustainable, and efficient heating option that supports our local communities.

At over 85% efficiency sustained, you are switching to clean energy with minimal emissions.

Decarbonize your household: switching to pellets will dramatically decrease your carbon footprint.
