II. Installation Standards Agreement

When installing solar hot water systems in Vermont, _____
(company name)

certifies that all the companies' solar thermal installations will:

1. Meet all State of Vermont requirements.
2. Comply with state plumbing and/or local plumbing codes and regulations.
3. Utilize a licensed installer as required by Vermont law.
4. Use only SRCC-listed components (or equivalent) if available.
5. Include a written contract with the customer.
6. Include at least a one-year warranty on parts and labor.

Signature & Title

Date

III. Documentation of Insurance

Provide proof of insurance of at least \$1 million per incident, and a \$2 million aggregate.

IV. Documentation of Professional Experience

1. Provide REV with details (type, size, location) of **three** solar hot water systems that your business has installed for a paying customer within the past year.
2. Provide REV with customer contact information for each installation. Customers will be contacted to verify completion of satisfactory installations.
3. E-mail digital photos of the three installed systems to Info@REVermont.org. Include images of the following system components: solar collectors, storage tanks and heat exchangers, and controls and circulators. The Partnership Committee reviews images as part of the application review.

– OR –

1. Provide REV with proof that the company employee(s) who will be installing systems have been certified by the North American Board of Certified Energy Practitioners (NABCEP) for solar thermal installations.
2. Provide details (type, size, location) of **one** solar thermal system that your business has installed for a paying customer within the past year.
3. Provide REV with customer contact information for the completed installation. The customer will be contacted to verify completion of satisfactory installation.
4. E-mail digital photos of the installed system to Info@REVermont.org. Include images of the following system components: solar collectors, storage tanks and heat exchangers, and controls and circulators. The Partnership Committee reviews images as part of the application review.
