*Date*

#### IV. Documentation of Insurance

Provide proof of insurance of at least \$1 million per incident, and a \$2 million aggregate.

#### V. Documentation of Professional Experience

1. Applicants for renewal must provide proof of three wind continuing education credits.<sup>1</sup>
  - a. The first credit must be an installation reference for one wind installation (at least 1 kW) completed by the company for a paying customer. For renewal of partnership status, the installation must have been completed within the last two years. For renewal of provisional status, the installation must have been completed within the last year. The installation reference must include:
    - 1) customer contact information (e-mail or phone)
    - 2) system details (turbine type, size, height of tower, and location of installation)
    - 3) digital photos of the installed system, including these components: turbine (from two different perspectives, power panel (inverter, disconnects, etc.), and system grounding. Send images to [Info@REVermont.org](mailto:Info@REVermont.org).
  - b. The second and third continuing education credits may be other installation references (include customer contacts, system details, and images) or proof of completion of REV-approved wind installation courses.
2. Partners holding two or three types of partnerships (photovoltaic, solar thermal, or wind) need submit only one continuing education credit for each technology type.
3. Partners with no installs in a partnership type in the past year will be moved to provisional status.

---

<sup>1</sup> One continuing education credit is equal to one complete system installation or one REV-approved training course.
